

Conduct is a unique email drip marketing technology for portal members. Contacts are added by the member and protected with ListLock™. The Contact Manager is set up with standard fields, but custom fields can be added to hold contact data.

Conduct Contact Manager

Setup Contact Manager

Contact Manager holds data about your contacts and is set up for you. You can add more sections and fields, move fields around or delete them.

Add Contacts

Add contacts one at a time or upload a contact list from an Excel or CSV file.

Contact List

Lists organize your contacts so you can add the contacts in the list as invites to the promotion.
